

► RECONN × PECB · AUTHORIZED TRAINING PARTNER

PECB Certified EU AI Governance Professional

Learn to apply the EU Artificial Intelligence Act in practice:
scope, roles, risk classification, governance and compliance
monitoring.

Every great mission starts with **reconn**.

• Self-Study · English

• 31 CPD Credits

• 2 Exam Attempts

• Free 1-on-1 Mentoring

FOUR WAYS TO ENROL

Course only, or paired with ISO/IEC 42001 Lead Implementer, Lead Auditor,
or both. See pages 5 and 6.

Why should you attend?

AI is transforming industries, and it is raising serious ethical and regulatory questions. Europe has set the tone for responsible AI with the EU Artificial Intelligence Act.

The Act classifies AI systems by risk and sets proportionate duties for the organisations that build, deploy, import or distribute them. It turns responsible-AI principles into concrete obligations for organisations with a presence in the European market.

This course teaches you to decide whether the Act applies to your AI systems, identify your organisation's role, classify systems by risk, and plan the governance, documentation, human oversight and monitoring needed across the AI life cycle.

After the course you can sit the PECB exam and, on passing, apply for the PECB Certified EU AI Governance Professional credential.

400+

pages of PECB course materials

31

CPD credits

80

exam questions, 70% to pass

2

exam attempts included

Who should attend?

- Governance and compliance leads
- Data scientists, data engineers and AI developers
- Legal, compliance and privacy professionals
- Executives managing AI-related risk
- IT, security and technical staff
- Consultants
- Managers overseeing AI initiatives
- Prerequisite: a fundamental understanding of AI or digital technologies

Course outline: 4 days of content plus the exam

DAY
1

EU AI Act foundations, applicability, and risk classification

DAY
2

AI governance, GPAI, and risk management

DAY
3

Documentation, human oversight, and compliance formalization

DAY
4

Compliance formalization

DAY
5

Certification exam

Learning objectives

After this course you will be able to:

- ✓ Explain the purpose, scope, structure and risk-based approach of the EU AI Act, including its link to the wider EU regulatory landscape
- ✓ Determine whether and how the Act applies to your organisation's AI systems, operator roles and data use
- ✓ Plan an internal governance and compliance framework covering the Act and the EU Data Act
- ✓ Apply key AI Act requirements across the AI life cycle
- ✓ Support implementation, monitoring, reporting and continual improvement of compliance

How self-study works

01

Enrol

Choose your package and start your 12-month window.

02

Study

Work through the PECB courseware at your own pace.

03

Get mentored

Book your free 60-minute 1-on-1 session. Email and WhatsApp support follows.

04

Sit the exam

Take it online through the PECB Exams app, with instant results.

Examination

80 multiple-choice questions, pass mark 70%, open book (a copy of the EU AI Act, course materials and your notes are allowed). Taken online through the PECB Exams app with instant results. The exam covers six competency domains:

- 1

EU AI Act foundations and regulatory context · 12.5%
- 2

Applicability, scope, and role determination · 18.75%
- 3

Organizational governance and compliance planning · 11.25%
- 4

Management systems, risk, data, and technical controls · 21.25%
- 5

Documentation, transparency, and compliance formalization · 23.75%
- 6

Compliance monitoring and life cycle management · 12.5%

Certification

CREDENTIAL	PROFESSIONAL EXPERIENCE	AI GOVERNANCE / PROJECT EXPERIENCE
Provisional EU AI Governance Professional	None	None
EU AI Governance Professional	5 years	2 years in AI governance · 300 project hours

Both credentials require passing the exam and signing the PECB Code of Ethics. The full credential also needs two professional references. Certification is valid for 3 years.

Packages and pricing

Start with the EU AI Governance Professional course, or pair it with an ISO/IEC 42001 course. Prices are in USD.

EU AI GOVERNANCE · SELF-STUDY

- 100% online
- PECB official courseware
- 31 CPD credits (EU AI Governance)
- English

Enrol at reconn.io/euaig. The PECB EU AI Governance Professional credential demonstrates personal competence. It does not certify that an organisation complies with the EU AI Act.

Choose your pathway

Pick the package that matches the work you do. Every package starts with the EU AI Governance Professional course.

WHAT YOU GET	SELF-STUDY	+ LEAD IMPLEMENTER	+ LEAD AUDITOR	ULTIMATE
Apply the EU AI Act: scope, roles, risk classes	●	●	●	●
Build and run an AI management system (ISO/IEC 42001)	—	●	—	●
Audit an AI management system (ISO/IEC 42001)	—	—	●	●
Courses	1	2	2	3
Free 1-on-1 mentoring sessions	1	2	2	3
Delivery	Self-Study	Self-Study + eLearning	Self-Study + eLearning	Self-Study + eLearning
Fits	Professionals who need to apply the Act	Teams building AI governance	Assurance and audit roles	Leads who apply, build and audit

Why pair the two?

The law, and the system behind it

The EU AI Act sets what the law expects. ISO/IEC 42001 is a voluntary management-system standard for running AI governance day to day. One course teaches the first, the other the second.

One learning path

Start with the Act, then add the Lead Implementer to build a management system or the Lead Auditor to assess one. Each course keeps its own 12-month window, so you can sequence them.

Support for every course

Each course carries its own free 60-minute 1-on-1 mentoring session, plus email and WhatsApp support until you clear the exam.

Know the limits

ISO/IEC 42001 is not a harmonised standard under the EU AI Act, and certification does not confer legal compliance with it.

Why reconn — AI-first cybersecurity

Distribution & GTM

Helping AI and cybersecurity vendors launch and scale across MEA via our Growth Intelligence Framework.

Solutions

AI Governance, Agentic AI, Digital Risk Protection, Threat Intelligence, EASM, VAPT and Third-Party Security Scoring.

Training & Certification

PECB Authorized Partner delivering the full PECB catalogue plus end-to-end ISO implementation and consulting.

Implementation & Certification Services

ISO 42001, ISO 27001 and ISO 22301 implementation and certification support, plus offensive security services.

Led by a practitioner, not a slide reader

- 20+ years in cybersecurity
- One of the first PECB Certified AI Professionals (CAIP)
- 10+ years in enterprise AI
- PECB Certified Trainer
